### DAN Asia-Pacific DIVE ACCIDENT REPORTING PROJECT

This project is an ongoing investigation seeking to document all types and severities of diving-related accidents. Information, all of which is treated as being confidential in regard to identifying details, is utilised in reports on fatal and non-fatal cases.

Such reports can be used by interested people or organisations to increase diving safety through better awareness of critical factors.

Information may be sent (in confidence unless otherwise agreed) to:

DAN Research  
Divers Alert Network Asia Pacific  
PO Box 384, Ashburton VIC 3147, Australia  
Enquiries to: <research@danasiapacific.org>

---

### DIVING INCIDENT MONITORING STUDY (DIMS)

DIMS is an ongoing study of diving incidents. An incident is any error or occurrence which could, or did, reduce the safety margin for a diver on a particular dive. Please report anonymously any incident occurring in your dive party. Most incidents cause no harm but reporting them will give valuable information about which incidents are common and which tend to lead to diver injury. Using this information to alter diver behaviour will make diving safer.

**Diving Incident Report Forms (Recreational or Cave and Technical)**  
can be downloaded from the DAN-AP website: <www.danasiapacific.org>

**They should be returned to:**

**DIMS, 30 Park Ave, Rosslyn Park, South Australia 5072, Australia.**
