## Conference Highlights

- **Biomaterial**
- **Energy Material**
- **Nano Material and Nano Technology**
- **Metallurgy and Mining**
- **Engineering and Functional Ceramics**
- **Materials design**
- **Organic and Inorganic Chemistry**
- **Composite and Hybrid Materials**
- **Optical, Electronics and Magnetic Materials**
- **Polymeric Material**
- **Bio technology and Nanomedicine**
- **Renewable and Sustainable energy**
- **Solid State Chemistry**
- **Green Chemistry**
- **Theoretical Chemistry**
- **Atomic structure and interatomic bonding**
- **Nano-Alloys**
- **Artificial Intelligence**
- **bio catalysis**
- **Mineral and Mineral Material**
- **Computational Materials Science**
- **Metamaterials**
- **Nano Engineering**
- **Micro and Macro molecules**

### About us

Scientex Conferences provide a global platform for exchanging ideas and keeps on updating about the latest innovations in different Subjects. Opportunity to attend the presentations delivered by eminent Scientists from all over the world. Global networking: In transferring and exchanging Ideas. A Unique Opportunity for Advertisers and Sponsors at this International event. We present you team of dedicated minds driven by the thought of gathering together the people of alike objected to an exclusive platform. Science brings forward the art of molding the experience and the experiments into a reality.

## BANGKOK, THAILAND

Thailand is host for nearly a thousand islands. Ray Smith took the photograph. Bangkok is their residence to one-tenth of Thailand's total population. It is the capital of this great nation, as well as its largest city. Thailand is the only country in Southeast Asia that has never been settled by a European country. In reality, the country's name in Thai is Prathet Thai, which translates as "land of the free." Very appropriate!

The "wai" is Thailand's traditional and most common greeting. The way the gesture is executed is entirely dependent on the relationship between the persons, and there are numerous variations. In general, a person places their palms together, fingers extended at chest level, and bows gently. A younger person will greet first, and an older person will react with a lower-pitched "wai." The more respect displayed, the higher one's hands are put. Bows and curtsies are also more prominent to demonstrate respect. Thailand is a Southeast Asian country bordered by the Andaman Sea and the Gulf of Thailand. Burma, Cambodia, Laos, and Malaysia are all neighbours. A mountain range in the west and a southern isthmus connect the landmass to Malaysia make up the landscape.

Network & Refreshments Break\*

Tracks: Bio material | Energy material | Nano material and Nano Technology | Metallurgy and Mining

Lunch Break\*\*

Tracks: Engineering and Functional Ceramics | Materials design | Organic and Inorganic Chemistry | Composite and Hybrid Materials

Network & Refreshments Break\*

Tracks: Optical, Electronics and Magnetic Materials | Polymeric Material | Biotechnology and Nanomedicine | Renewable and Sustainable energy

Day Concludes

May 21, 2024 - Tuesday

Session

Keynote Forum

Network & Refreshments Break\*

Tracks: Solid state chemistry | Green Chemistry | Theoretical Chemistry | Atomic structure and inter atomic Bonding

Lunch Break\*\*

Tracks: Nano-Alloys | Artificial Intelligence | Bio catalysis | Mineral and Mineral Material

Network & Refreshments Break\*

Tracks: Computational Material Science | Meta materials | Nano Engineering | Micro and Macro Molecules

( Day Concludes | Award Ceremony | Conference Concludes )
