CRISIS MANAGEMENT IN OBSTETRIC ANAESTHESIA AND NEONATAL RESUSCITATION

OVERVIEW
This course will provide anaesthetists with a thorough review of the practical management of various obstetric anaesthetic emergencies as well as the fundamentals of neonatal resuscitation.

The course aims to provide participants with the opportunity to improve their knowledge, technical and teamwork skills in the management of these emergencies.

COURSE HIGHLIGHTS
Full day workshop (08h00-17h00) covering neonatal resuscitation and various obstetric anaesthetic emergencies such as:
- Maternal cardiac arrest
- Maternal haemorrhage
- The difficult obstetric airway

Educational modalities include a variety of presentations, skills stations and fully immersive simulation scenarios.

Endorsed by ANZCA, meeting the standards for recognition of the Cardiac Arrest Emergency Response Activity.

Held in the new state of the art Sunshine Simulation Centre and run by anaesthetists and neonatologists experienced in simulation.

Fully catered with morning tea, lunch and mid-afternoon snacks.

DESIGNED FOR
- Consultant anaesthetists especially the “occasional” obstetric anaesthetist
- Anaesthetic trainees who have completed introductory training
- GP anaesthetists

2016 WORKSHOP DATES
- Friday 10/06/16

COURSE FEE
Consultant Anaesthetists/ GP Anaesthetists - $980
Anaesthetic Trainees - $470
This includes all course materials and catering on the day

CPD
On completion of this course, participants in the ANZCA CPD Program may claim:
- The Cardiac Arrest Emergency Response Activity in their CPD Portfolio.
- 8 CPD points (4 hours) in the “Knowledge and Skills”.
