Discount for
Junior
Doctors

BECOME A SKILLED OPERATOR IN FOCUSSED ECHOCARDIOGRAPHY.

Our basic beginner two-day cardiac ultrasound workshop is designed specifically for junior doctors (non specialist) though to intensivists, emergency physicians, anaesthetics, rural GPs, general medicine, and cardiology trainees. The aim of the course is to provide medical doctors with all the necessary skills to become proficient in the performance and diagnosis of the focussed cardiac ultrasound exam. Our experienced echocardiography educators simplify this learning process throughout, applying our proven step-by-step approach and comprehensive hands-on component to each workshop.

*Give yourself a head start with an additional 5 hours of private echo training on the Friday before your workshop.
